

Special arrangements in relation to COVID-19.

Following the closure of schools from the 23rd March 2020 Government guidelines stated:

Vulnerable children include those who have a social worker and those children and young people up to the age of 25 with education, health and care (EHC) plans.

Those with an EHC plan should be risk-assessed by their school in consultation with the local authority (LA) and parents, to decide whether they need to continue to be offered a school or college place in order to meet their needs, or whether they can safely have their needs met at home. This could include, if necessary, carers, therapists or clinicians visiting the home to provide any essential services. Many children and young people with EHC plans can safely remain at home.

In order to ensure that our pupils with EHC plans are supported, the school consulted families with regard to whether or not their child needs to attend school. The school have ensured that the expectations for work being completed at home is understood and that pupils can access the work being set by school staff. As a school we are undertaking weekly check ins to ensure that pupil's health, wellbeing and their EHC plan outcomes are being met. Work set by class teachers takes in to account the needs of the pupils in their classes and is open-ended in nature to allow pupils to engage with and further their own learning.

Parents of SEND pupils may require our support at this time and parents have been made aware they are able to access support from staff by emailing the office who will signpost their request to the relevant staff member. In addition to this, the SENDCo can be contacted via email: office@pinvinfed.co.uk

The school are aware that the transition period for our pupils with SEND has been greatly affected by the current situation and we continue to work alongside our pre-school and secondary colleagues along with outside relevant professionals to ensure that the information needed is shared. As the academic year progresses, we will SEND out transition material that will endeavour to support all our SEND pupils at this transitional time.

External agencies will only become involved if necessary following the usual graduated response process. When government guidance allows, external agency review meetings will recommence.

To ensure a smooth transition back to fulltime education, our EHCP children and those with social worker involvement will be issued a Pupil Specific Recovery Plan.
